ELLERSTON POLO TRIVIA NIGHT!

Last Wednesday was the first time I had the pleasure of attending the Ellerston Public School & Ellerston Polo Trivia Night. Without a doubt, everyone that took part thoroughly enjoyed themselves. There were lots of laughs and interaction between the teams which helped to make the event a great success. It was also pleasing to see a broad range of ages taking part.

Thank you to all the Ellerston Public School students and parents past and present, the Ellerston community and visiting polo friends for coming along to support the school. I would also like to thank Glen Gilmore for doing a fabulous job as MC and the staff from the club for helping to set up and joining in with a team of their own.

Thank you to Mrs Packer and Ellerston Pty Ltd for allowing the school to use the club to run the Trivia night and for your very generous donations towards the prizes. Your ongoing cooperation and support of our school is greatly appreciated.

A special thank you must also go out to the teams who donated their prize winnings back to the school. Such a generous gesture that allowed us to reach a total of $1457.00 monies raised for the evening.

STATE ATHLETICS

This Wednesday and Thursday the State Athletics Carnival will be run at Homebush. Once again, our successful relay team will be competing. I’m sure that everyone will join with me in wishing Sarah, Ned, Jack and Cody all the best as they represent our school. Even though they won’t be able to hear us, the whole school and community will be cheering them on.

To all the parents who make these opportunities a reality. Without your continued support and commitment, your children wouldn’t be able to compete. Thank you so much!
From the Little Room.........Week 2

A Peek at the Week:-
Leader: Grace

Sounds:
K - v, w, z
1 - pl, pr
2 - ph, oo

Sight Words: K - called, who, am, its, now
1 - self paced
2 - self paced

Maths Focus: Area
Grammar Focus: Suffixes

Last week we began our Science Unit “Spot the Difference”. By predicting and observing changes in everyday materials, the children will develop an understanding of the best way to manage things such as food handling and cooking, construction and packaging. This is a unit from the new syllabus and we are all very excited to see how it goes.

Much ❤️ Mrs Campbell
